Resources for Berry Crops

For more information on how to grow berry crops, see these publications available from the OSU Extension Service at [http://extension.oregonstate.edu/catalog/](http://extension.oregonstate.edu/catalog/)

**Blueberry**

- Blueberry Cultivars for Oregon. Strik and Finn. 2008 EC 1308

**Caneberries**

- Raspberry Cultivars for Oregon. Finn and Strik. 2008. EC 1310
- Blackberry Cultivars for Oregon. Finn and Strik. 2008. EC 1617

**Strawberries**

- Strawberry Cultivars for Oregon. Finn and Strik. 2008. EC 1618
- Strawberries: Western Oregon—West of Cascades Fertilizer Guide. Hart et al. FG 14-E

**Miscellaneous berry crops**

- Leaf Analysis of Nutrient Disorders in Tree Fruits and Small Fruits. Stebbins and Wilder, FS 118
- Recognize Fruit Damage from Spotted Wing Drosophila. Walton et al., 2010. EM9021-E
Lingonberry Production Guide for the Pacific Northwest. Penhallegon. PNW 583-E
Selecting berry crop varieties for Central Oregon. Detweiler and Strik. 2008. EC 1621-E

Soil/nutrient sampling

Laboratories Serving Oregon: Soil, Water, Plant Tissue, and Feed Analysis. EM 8677
Acidifying Soil for Crop Production West of the Cascade Mountains (Western Oregon and Washington), Horneck et al. 2004 EM8857-E
Applying Lime to Raise Soil pH for Crop Production (Western Oregon). Anderson et al. 2013. EM 9057-E
Soil Sampling for Home Gardens and Small Acreages. EC 628
Estimating Plant-Available Nitrogen from Manure. EM 8954-E
Irrigation Water Quality Fertilizer Guide. Vomocil and Hart. FG 76-E
Monitoring Soil Nutrients Using a Management Unit Approach. PNW 570-E
